#### LOTUS EXIGE V6 MKIII 2013-

**PART NO:** LOV GN00

Öhlins range of Advanced Trackday & Motorsport featuring our well-proven mono tube design is the best choice for trackday aficionados seeking the ultimate performance.

The lightweight and quick Lotus Exige V6 offers agile handling already as a standard car. Equipped with the specific designed and tested Öhlins suspension based on our well-proven single-tube dampers, the Lotus gains from even better stability and precision handling to racetrack levels.

Separate adjustable in compression and rebound damping the suspension set offers many possibilities to find the perfect setup to suit the drivers individual needs.
