SHOCK ABSORBER FOR HONDA MONKEY (2018)

PART NO: HO 919

Take full control over the road with Öhlins STX36 Twin shock absorbers and enjoy the ride with improved precision and stability of your bike.

Based on our well proven mono tube technology, the Öhlins STX36 Twin shock absorber sets the standard for performance, quality and durability. Due to the integrated temperature compensation system the damping will be adjusted according changes caused by temperature and stay at the same level in different conditions. Adjustable in spring preload and with a wide range of springs available, the STX36 Twin shock absorber can be set up for the individual rider.

Improve performance and safety of your Honda Monkey with the Öhlins STX36 Twin shock absorber.
