

The Öhlins kit allows lower ride-height than the height shown in the picture

Issued 06/05/2021

ROAD & TRACK

PRODUCT NEWS

BMW Z4 2019-

PART NO: TOS MU00 • **CHASSIS CODE:** G29

Fits RWD & AWD (xDrive) models

This is the latest step in the Öhlins Racing automotive philosophy – Road & Track by Öhlins.

A more than 30 year long tradition of high-end racing commitments and state-of-the-art solutions within advanced suspension technology is now available for street cars all over the world. The focus has been clear from the very beginning – superior road handling without sacrificing comfort in your day-to-day transports. The time of compromises is over.

We have also added a clever light-weight design with a majority of the parts in aluminium and on top of that all shocks have suffered through vast corrosion tests according to ISO 9227. The end result is a 2-year limited warranty on all of our products - worldwide.

GENERAL FEATURES

- > DFV (Dual Flow Valve)
- > Serviceable and rebuildable
- > Corrosion salt spray tested (ISO 9227)
- > 2 year limited warranty
- > Springs ordered separately

FRONT FEATURES

- > McPherson strut, Upside Down
- > Single bleed adjuster for compression and rebound damping
- > Spring preload adjuster
- > Height adjustable (approx. 20 mm lower than standard)
- > Coil springs (rate 90N/mm)
- > Use with original top mounts

REAR FEATURES

- > Conventional shock absorber
- > Single bleed adjuster for compression and rebound damping
- > Separate spring preload adjuster
- > Height adjustable (approx. 20 mm lower than standard)
- > Coil springs (rate 160 N/mm)
- > Use with original top mounts
