AUDI A5 2007-2016 / **S5** 2007-2017 / **RS5** 2010-2017

PART NO: AUS MS00 • **CHASSIS CODE:** B8

DFV

A more than 30-year long tradition of high-end racing commitments and state-of-the-art solutions within advanced suspension technology is now available for streetcars all over the world.

The focus has been clear from the very beginning – superior road handling without sacrificing comfort in your day-to-day transports. Öhlins Road & Track team has extensively tested a wide variation of springs to find the right balance between road and track use. The time of compromises is over!

Based on a smart lightweight design and made of Aluminum for the most part, all shocks have suffered through vast corrosion tests according to ISO 9227. The result is a worldwide 2-year limited warranty on all of our products.

GENERAL FEATURES
