

ROAD & TRACK

AUDI S3 2006-2012

PRODUCT NEWS

S3 2006-2012

PART NO: VWS GMI20 **Chassis Code:** 8P

This is the latest step in the Öhlins Racing automotive philosophy – Road & Track by Öhlins.

A more than 30 year long tradition of high-end racing commitments and state-of-the-art solutions within advanced suspension technology is now available for street cars all over the world. The focus has been clear from the very beginning – superior road handling without sacrificing comfort in your day-to-day transports. The time of compromises is over.

All shocks have suffered through vast corrosion tests according to ISO 9227. The end result is a 2-year limited warranty on all of our products - worldwide. Öhlins Road & Track team has extensively tested a wide variation of springs to find the right balance between road and track use.
