Have you ever dreamt about turning your trackcar into a proper racecar? With Öhlins Advanced Trackday applications it's now possible to turn your BMW into a proper racecar.

We want you to achieve your best lap time yet, whenever trackday is around the corner. We developed these Advanced Trackday applications for BMW, to improve performance at the track. With the individual compression and rebound adjusters, you'll be able to optimize performance effortlessly. Because every day should be trackday, right?

These products are widely used in the top motorsport series, winners in GT-racing and top touringcar racing series. Equipped with our TTX-technology the shock absorber keeps the pressure in balance, so all you need to focus on is the track ahead. See you at the track!
