SHOCK ABSORBER FOR TRIUMPH THRUXTON (2015)

PART NO: TR 845

Beautiful motorcycles deserve beautiful suspension!

The Öhlins STX36 Blackline shock absorbers will give your Triumph Thruxton not only a classic style but also improved riding comfort and performance.

The well proven mono tube design STX 36 Twin shock absorber is a high pressure gas type of shock absorber with internal reservoir in the main body. Adjustable in spring preload, rebound damping and length, these dampers give you the option to fine tune the settings to suit your individual riding style. Due to the integrated temperature compensation system the damping will be adjusted according changes caused by temperature and stay at the same level in different conditions.

You will feel improved ride comfort, traction and control wherever you go.
