**GOLF VII • GOLF VII GTD • GOLF VII GTE • GOLF VII GTI
GOLF VII R • GOLF VII R VARIANT • GOLF VII VARIANT**

PART NO: VWS MT21 • **CHASSIS CODE:** 5G

DFV

A more than 30-year long tradition of high-end racing commitments and state-of-the-art solutions within advanced suspension technology is now available for streetcars all over the world.

The focus has been clear from the very beginning – superior road handling without sacrificing comfort in your day-to-day transports. Öhlins Road & Track team has extensively tested a wide variation of springs to find the right balance between road and track use. The time of compromises is over!

Based on a smart lightweight design and made of aluminum for the most part, all shocks have suffered through vast corrosion tests according to ISO 9227. The result is a worldwide 2-year limited warranty on all of our products.

GENERAL FEATURES

> DFV (Dual Flow Valve)

> Servicable and rebuildable

> Corrosion salt spray tested (ISO 9227)

> 2 year limited warranty

> Delivery without springs

> Weight reduction compared to original suspension ca. 10 kg
