APPLICATIONS FOR YAMAHA YZF-R25/R3 (2019)

PART NO: FSK 143 • YA 467

Take full control over the road with an Öhlins suspension upgrade and enjoy the ride with improved precision and stability of your bike!

Based on our well proven mono tube technology, the Öhlins STX46 Supersport shock absorber sets the standard for performance, quality and durability. Our STX technology gives you a smoother, more controlled and enjoyable ride. The high pressure gas shock absorber with a hose mounted external reservoir offers several adjustment options such as separate compression and rebound damping as well as spring preload and an additional length adjuster.

Due to the integrated temperature compensation system the damping will be adjusted according changes caused by temperature and stay at the same level in different conditions. With a wide range of springs available, the Öhlins STX46 Supersport shock absorber can be set up for the individual rider.

The Öhlins front fork spring kit FSK featuring a replacement top cap is a cost effective upgrade to bikes with upside down forks. You will feel the significant improvement in handling, cornering and braking on every single ride. Our kit gives your bike better performance, increased grip and more stability leading to a safer ride.
