REAR SHOCK FOR DUCATI X-DIAVEL

PART NO: DU 726

For seamless control and perfectly matched to the bikes chassis. Öhlins DU 726 STX 46 rear shock absorber delivers powerful suspension performance to equal the performance of the X-Diavel. With more feel, stability, comfort, and even traction, the DU 726 is the perfect upgrade for any X-Diavel owner.

A rear monotube high pressure gas type of shock absorber with hose mounted external reservoir. This shock provided rebound damping, compression damping, and spring preload with black spring suitable for this kind of cruiser.
