SHOCK ABSORBER FOR BMW G310GS (2018)

PART NO: BM 850

Take full control over the road with Öhlins STX 46 shock absorber which sets the standard for performance, quality and durability. With a major suspension upgrade and rebound adjustment, the STX 46 shock absorber will let you ride with precision and stability to become one with the road. With the piggy back reservoir version you will also get compression and rebound damping adjustment, which aids in extra comfort and support.

Our STX-technology gives a smoother, more controlled and enjoyable ride. The series are a high pressure monotube type which provides a higher performance capability. The technology works with an integrated temperature compensation, adjusting the systems performance to compensate for changes caused by temperature. This makes your ride more accurate and reliable.

The Öhlins STX 46 shock absorber sets the standard for performance, quality and durability for your BMW G310 GS. Our trusted STX technology provides a confident and reliable ride with improved grip and stability for increased safety.
