ROAD & TRACK

PRODUCT NEWS

SUBARU BRZ 2012-2018

BRZ 2012-2018

PART NO: SUS MP21 • CHASSIS CODE: ZC6

DFV

The Road & Track product line is the latest step in the Öhlins Racing automotive philosophy.

A more than 30 year long tradition of international high-end racing commitments and state-of-the-art solutions within advanced suspension technology is now available for street cars all over the world. Best materials and perfect quality together with our patented Dual-Flow-Valve (DFV) lead to impressive traction and superior road handling without sacrificing comfort in your day-to-day transports. The time of compromises is over.

Based on a smart lightweight design and made of Aluminum for the most part, all shocks have suffered through vast corrosion tests according to ISO 9227. The result is a world wide 2-year limited warranty on all of our products. Öhlins Road & Track team has extensively tested a wide variation of springs to find the right balance between road and track use.

GENERAL FEATURES

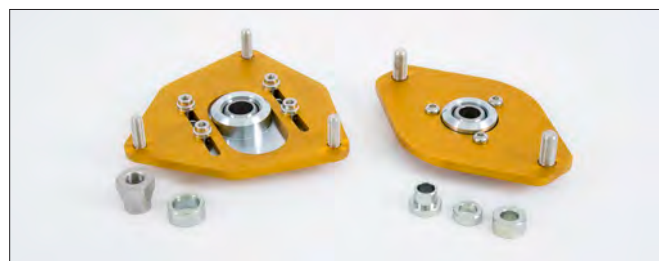

- > DFV (Dual Flow Valve)
- > Height adjustable
- > Rebuildable
- > Corrosion salt spray tested (ISO 9227)
- > 2 year limited warranty
