## ROAD & TRACK

# DFV

## Subaru BRZ / Toyota GT86 / Scion FR-S 2012-

This is the latest step in the Öhlins Racing automotive philosophy – Road&Track by Öhlins.

A more than 30 year long tradition of high-end racing commitments and state-of-the-art solutions within advanced suspension technology is now available for street cars all over the world.

The focus has been clear from the very beginning – superior road handling without sacrificing comfort in your day-to-day transports. The time of compromises are over!

We have also added a clever light-weight design with a majority of the parts in aluminium and on top of that all shocks have suffered through vast corrosion tests according to ISO 9227. The end result is a 2-year limited warranty on all of our products - worldwide.

**Notice!** Top mounts are not included, can be ordered separately. Part No: 25633-43 front left, 25633-44 front right, 25633-45 rear.

## FEATURES

### General

- > DFV (Dual Flow Valve)
- > Rebuildable
- > Corrosion salt spray tested (ISO 9227)
- > 2 year Limited Warranty

### Front

- > McPherson Strut
- > Coil Springs (40 N/mm)
- > Height adjustable
