

Dear Öhlins partner,

the following information has come to our attention about spring kit:

FSK 115 Indian Scout 2015-2016

FSK 115 fits all 2015 bikes but in mid-2016 Indian changed the Top-cap design and size from M37 to M35.

An easy way to recognize if your customer has the M37 which works with the FSK 115 or if they have the M35 which does not work with the FSK 115 is by the following picture we have received from Indian.

For the M35 bikes 2016-2017 we have just released a new kit which will be called FSK 121.

If you have bought cartridge kit FSK 115 from us and wish to convert these to FSK 121 or if you have supplied a customer FSK 115 and they found that it does not fit because they have the 2016 bike with M35 top cap then you are entitled to order from Öhlins DTC a conversion kit called ALDA 338. The ALDA 338 will be supplied from Öhlins DTC free of charge.

Please inform us as soon as possible if you need any ALDA 338 and if so how many you require.

Best regards,

Michael Schwabe
Product Manager MC
