

Öhlins Road & Track Coilover Suspension BMW M3/M4 (G80/G81/G81/G82) xDrive BMS MW10S1

A more than 40 year long tradition of high-end racing commitments and state-of-the-art solutions within advanced suspension technology is now available for street cars all over the world. The focus has been clear from the very beginning – superior road handling without sacrificing comfort in your day-to-day transports. The time of compromises is over. All shocks have suffered through vast corrosion tests according to ISO 9227. The end result is a worldwide 2-year limited warranty on all of our products.

General Features:

- Patented DFV technology (Dual Flow Valve)
- Individual height adjustment
- Rebuildable
- Corrosion salt spray tested (ISO 9227)
- 2 year warranty
- Approx. 10 kgs less weight compared to standard suspension

Features Front:

- McPherson strut, upside down
- Compression and rebound damping with one adjuster
- Spring preload adjuster
- Separate length adjustment
- Approx. 25 mm lower than standard with recommended setup
- Spring rate 100 N/mm
- Use with original top mounts

Features Rear:

- Conventional shock absorber

Compression and rebound damping with one adjuster
Spring preload adjuster
Separate length adjustment
Approx. 20 mm lower than standard with recommended setup
Spring rate 190 N/mm
Use with original top mounts

DFV

DFV stands for Dual-Flow-Valve. A patented technology only available on Öhlins Road & Track coil over suspension. At the racetrack, the DFV gives you incredible traction but on the road, it delivers high comfort for daily transports.
