

Öhlins Road & Track Coilover Suspension Mercedes A45 AMG (W177) MES MV10S1

A more than 40 year long tradition of high-end racing commitments and state-of-the-art solutions within advanced suspension technology is now available for street cars all over the world. The focus has been clear from the very beginning – superior road handling without sacrificing comfort in your day-to-day transports. The time of compromises is over. All shocks have suffered through vast corrosion tests according to ISO 9227. The end result is a worldwide 2-year limited warranty on all of our products.

General Features:

- Patented DFV technology (Dual Flow Valve)
- Individual height adjustment
- Rebuildable
- Corrosion salt spray tested (ISO 9227)
- 2 year warranty
- Approx. 10 kgs less weight compared to standard suspension

Features Front:

- McPherson strut, upside down
- Compression and rebound damping with one adjuster
- Spring preload adjuster
- Separate length adjustment
- Approx. 20 mm lower than standard with recommended setup
- Spring rate 80 N/mm
- Use with original top mounts

Features Rear:

- Conventional shock absorber
- Compression and rebound damping with one adjuster
- Spring preload adjuster

Separate length adjustment

Approx. 15 mm lower than standard with recommended setup

Spring rate 110 N/mm

Use with original top mounts

Purchased Parts Package:
