

# Öhlins Road & Track Coilover Suspension Porsche 911 (993) POR GP01

A more than 40 year long tradition of high-end racing commitments and state-of-the-art solutions within advanced suspension technology is now available for street cars all over the world. The focus has been clear from the very beginning – superior road handling without sacrificing comfort in your day-to-day transports. The time of compromises is over. All shocks have suffered through vast corrosion tests according to ISO 9227. The end result is a worldwide 2-year limited warranty on all of our products.

## General Features:

- DFV technology (Dual Flow Valve)
- Individual height adjustment
- Rebuildable
- Corrosion salt spray tested (ISO 9227)
- 2 year warranty

## Front:

- McPherson strut, upside down
- Compression and rebound damping with one adjuster
- Spring preload adjuster
- Separate ride height adjustment
- Spring rate 60 N/mm
- Aluminum top mounts with adjustable camber

## Rear:

- Conventional shock absorber
- Compression and rebound damping with one adjuster
- Spring preload adjuster
- Separate ride height adjustment
- Spring rate 110 N/mm
