

Öhlins Road & Track Coilover Suspension Porsche 911 (996) GT2/GT3/GT3 RS POS MI10

A more than 40 year long tradition of high-end racing commitments and state-of-the-art solutions within advanced suspension technology is now available for street cars all over the world. The focus has been clear from the very beginning – superior road handling without sacrificing comfort in your day-to-day transports. The time of compromises is over. All shocks have suffered through vast corrosion tests according to ISO 9227. The end result is a worldwide 2-year limited warranty on all of our products.

General Features:

- DFV technology (Dual Flow Valve)
- Individual height adjustment
- Rebuildable
- Corrosion salt spray tested (ISO 9227)

POS MI10

Price and availability

No longer available

The logo for DFV (Dual-Flow-Valve) is displayed in a bold, red, italicized sans-serif font. The letters are thick and slanted to the right, with a slight gap between the 'D' and 'F', and between the 'F' and 'V'.

DFV stands for Dual-Flow-Valve. A patented technology only available on Öhlins Road & Track coil over suspension. At the racetrack, the DFV gives you incredible traction but on the road, it delivers high comfort for daily transports.
