

# Öhlins Road & Track Coilover Suspension Tesla Model 3, Model Y (TES MX00S1) Street Tuned

A more than 40 year long tradition of high-end racing commitments and state-of-the-art solutions within advanced suspension technology is now available for street cars all over the world. The focus has been clear from the very beginning – superior road handling without sacrificing comfort in your day-to-day transports. The time of compromises is over. All shocks have suffered through vast corrosion tests according to ISO 9227. The end result is a worldwide 2-year limited warranty on all of our products.

**Ohlins Road & Track coil over kit with softer setup for maximum comfort and increased stability**

(3 - 5 business days)

The logo for DFV, consisting of the letters "DFV" in a bold, italicized, red sans-serif font. The letters are slanted to the right.

DFV stands for Dual-Flow-Valve. A patented technology only available on Öhlins Road & Track coil over suspension. At the racetrack, the DFV gives you incredible traction but on the road, it delivers high comfort for daily transports.
