

Öhlins Professional Motorsport Products TTX30 AT Kit 475 - 535 mm

The successful TTX-technology shock absorbers is now also available for the use in the Crosskart and Crosskart Xtreme series. Thanks to the smaller diameter and design for damping forces to the compact and light weight carts the Öhlins TTX concept fits in perfect. Having good suspension on these fast vehicles the TTX 30 gives both the starting performance with excellent traction as well as good chassis control on the track. The shock absorber kits are available from your Öhlins distributor or from the main Crosskart manufacturers.
