

# Öhlins TTX Flow MX & Enduro Shock Absorber BA 2084

Without any trade-offs, the TTX Flow excels in all areas compared to previous models. You will feel that the response is quicker, more consistent and more predictable than ever before, allowing the TTX Flow to deliver a smoother roll on bumpy terrain which calms down the chassis for corner entry and eases the bikes handling through turns. It's almost like the TTX Flow shock absorber is communicating while you're racing, sensing your next move! It's also easy to adjust to find the perfect setting for the track and riding style.

Öhlins MX & Enduro shock absorbers are delivered without spring. The correct spring for the riders weight must be ordered separate. Information regarding the suitable spring series as well as recommendations for the spring rate can be found in the product details and in the mounting instructions.

Part number

BA 2084

Type Code

T46PR1C1W

T: Twin tube

46: Piston diameter: 46 mm

P: Monotube high pressure gas type of shock absorber with external "piggy back" reservoir.

W: Shock absorber delivered without spring, needs to be ordered separately.

R1 Flow: Rebound adjuster TTX Flow

C1 Flow: Compression adjuster TTX Flow

## Technical data

Position:	rear
Spring series:	06310- & 06451- spring series
Recommended oil:	1304
Packaging unit:	pieces

## Notes

Spring is not included and has to be ordered separately!

## Fits for vehicles

[Beta RR 2T 125 \(2020\)](#)

Motorsport product, not for use on public roads

[Beta RR 2T 200 \(2020\)](#)

Motorsport product, not for use on public roads

[Beta RR 2T 250/300 \(2020\)](#)

[Beta RR 4T 350/390/430/480 \(2020\)](#)
