

Öhlins TTX Flow MX & Enduro Shock Absorber KT 2084

Without any trade-offs, the TTX Flow excels in all areas compared to previous models. You will feel that the response is quicker, more consistent and more predictable than ever before, allowing the TTX Flow to deliver a smoother roll on bumpy terrain which calms down the chassis for corner entry and eases the bikes handling through turns. It's almost like the TTX Flow shock absorber is communicating while you're racing, sensing your next move! It's also easy to adjust to find the perfect setting for the track and riding style.

Öhlins MX & Enduro shock absorbers are delivered without spring. The correct spring for the riders weight must be ordered separate. Information regarding the suitable spring series as well as recommendations for the spring rate can be found in the product details and in the mounting instructions.

Part number

KT 2084

Type Code

T46PR1C1Q1W

T: Twin tube

46: Piston diameter: 46 mm

P: Monotube high pressure gas type of shock absorber with external "piggy back" reservoir.

Q1: Progressive damping shock absorber with two pistons.

Shock absorber delivered without spring, needs to be ordered separately.

W:

R1 Flow: Rebound adjuster TTX Flow

C1 Flow: Compression adjuster TTX Flow

Technical data

Length: 415 mm Stroke: 100 mm Position: rear

Spring series: 06320-XX or 06452-XX

Packaging unit: pieces

Notes

Spring is not included and has to be ordered separately!

Fits for vehicles

KTM 250 EXC-F Six Days (2020)

Motorsport product, not for use on public roads
