

# STX 22 Air Specialized Levo (2016-2018) SBC 1849

A large piston diameter balanced by a large compression valve ensures that internal pressures are kept under control, resulting in low hysteresis and excellent damping response. Low and high speed compression and rebound damping are externally adjustable.

The same type of adjusters as the TTX is used with an additional platform damping, a stability mode facilitating long climbs with maintained traction. In addition the STX22 Air for Specialized bikes features an auto-sag functionality for a quick and easy setup of the correct sag.

## Technical Specifications:

- Approx. 380 g
- Length
- Stroke
- Auto sag functionality
- Aluminium design, hard anodized
- Fully servicable and rebuildable
- 2 years limited warranty

## Adjustment:

- Spring rate (by air pressure)
- 3-click high speed compression damping
- 9-click low speed compression damping
- 6-click rebound damping
- Auto sag

## Purchased parts package:

- Shock absorber STX22 Air
- Model related parts for mounting
- Owners manual

Part number

SBC 1849

Fits for Mountain bikes

[Specialized Levo \(2016 - 2018\)](#)
